N.D.C.C. 28.1-01-07.5 requires:
After December 31, 1993, no insurer may issue or renew a policy for fire, allied lines, multiple peril crop, homeowner's multiple peril, farmowner's multiple peril, commercial multiple peril, or crop hail insurance coverage for property in this state unless the application identifies each fire district in which the insured property is located. The application must identify the property and insured value of the property located within each fire district if the policy provides coverage for property that is not all within a single district. For purposes of this section, 'fire district' means rural fire protection district, city or area served by a certified rural fire department.

INSTRUCTIONS
If all property insured is located in one Fire District, indicate Fire District in column A, "ALL" in column B, and complete columns C and D.

If some of the insured property falls into different Fire Districts, indicate each Fire District in column A. In columns B, C, and D, provide a breakout of the property in each district, its column A corresponding insured value, and proportionate premium.

Do not include Liability premium in column D.
